

# LaSalle Police Service

**"Dedicated to Serve"**

## Child Seat inspection / Installation

For a number of years, the LaSalle Police Service has provided the citizens of the Town of LaSalle and surrounding communities with assistance in inspecting and installing child seats in motor vehicles. We regularly hold child seat inspection / installation clinics as well as take appointments to make sure that your little ones can ride safe and secure. We also provide peace of mind to families, ensuring that the child seat is installed correctly and is in good working order. The various models and configurations can sometimes make it difficult and confusing to install and we understand your concern to ensure that it is installed correctly with the safety of the child in mind.

## With reference to COVID-19

The LaSalle Police Service is actively monitoring the reports of Coronavirus (COVID-19) from credible sources and considering how the COVID-19 as well as other respiratory diseases (e.g. cold and flu) will affect our community and organization. In collaboration with the Municipality of the Town of LaSalle and the Windsor-Essex County Health Unit, we are working to respond to the challenges posed by COVID-19. Our main focus is the health, safety, and wellbeing of our community and staff which remains paramount.

For the time being, the LaSalle Police Service is encouraging persons requiring a child seat install to contact us by phone to determine if we are able to accommodate this request. We will not turn anyone away but priority will be given to persons requiring an installation in order to prepare to bring a newborn home from hospital. If you require a child seat adjustment, such as changing from rear facing to front facing, please determine the urgency of this adjustment as we go through this community crisis. Research indicates that a rear facing child seat is the safest position overall, however if your child has completely outgrown this position we will certainly be there to help you.

There will be a health questionnaire to complete prior to any inspection / installation

**1. Have you travelled in the last 14 days? If yes, where have you travelled?**

**2. Are you currently experiencing any of the following symptoms?**

- Fever
- Cough
- Difficulty Breathing
- Chest Pains
- Shortness of Breath

**Response options YES or NO**

**3. Do you believe you have come in close contact with someone who may have or who has need confirmed to have COVID-19?**

**Response options YES or NO**
