

How can you help?

The most important step in helping a trafficked victim is recognizing the warning signs. It is also important not to take matters into your own hands. Here is what you can do:

- Take note of who is involved
- Note the license plate # and vehicle type
- Contact your local authorities

According to Polaris, an anti-human trafficking organization, there are **40.3 million** victims of human trafficking globally.

What is Human Trafficking?

the recruitment, transportation, transfer, harboring, or receipt of persons using methods of threat, force, fraud, or coercion, for the purpose of exploitation.”

- the United Nations

- Human trafficking is most commonly referred to as “modern day slavery”
- The trafficker uses the trafficked (the victim) to make a profit
- The victim is held & controlled against their will

Types of Human Trafficking

There are four main types of human trafficking: sex trafficking, forced labour, organ and marriage.

Grooming

“When someone builds an emotional connection with someone else to gain their trust.”

- NSPCC

The groomer can use a variety of methods to get close including; buying gifts, offering advice, paying attention, and/or extravagant vacations.

How do traffickers *recruit* their victims?

Human trafficking is relationship based. Traffickers lure their victims in with false, yet enticing promises. Some of these false promises include:

- permanent residency status
- a good job
- lavish lifestyle
- love

How do traffickers *control* their victims?

Three methods traffickers use to control their victims are:

Force “Inflicting physical harm to cause fear”

Fraud “Wrongful or criminal deception intended to result in personal or financial gain”

Coercion “The use of threats to intimidate or manipulate someone into doing something against their will”

Warning Signs

Branding Often times, victims are branded by their trafficker with tattoos. The tattoos are usually in highly visible places such as the neck, chest, face or wrists. Common tattoos include; non-traditional names, crowns, barcodes or money/gambling related quotes and symbols.

Health Many victims appear to be of poor health. The most common sign is physical neglect or malnutrition.

Appearance Despite potentially looking malnourished, victims often maintain above average personal hygiene. This can include well done hair and nails.

Injuries Violence towards victims is a popular control mechanism of traffickers. Visible and unexplainable bruises, ligature marks, or cuts can be warning signs.

ID and Finances The trafficker is likely to be in possession of all of the victim’s identification. You may notice this with finances as well as they will not be in possession of any cards.

Behaviour Victims typically avoid eye contact, and have a fear of law enforcement. If accompanied by their trafficker, it is likely they will not be left alone, nor allowed to speak.
